

DISGREGATION

Meaning: Disgregation refers to the process of breaking apart or disbanding a group or community, resulting in a loss of unity and social cohesion.

1. Disgregation of the community led to a significant decline in social cohesion.
2. The disgregation of the once-unified organization left many members feeling lost and uncertain.
3. After the disgregation of the political party, former allies found themselves on opposing sides.
4. Scientists observed the disgregation of species populations in the affected ecosystem over the years.
5. The disgregation of their friendship was gradual, marked by misunderstandings and lack of communication.
