

DISSOCIALIZE

Meaning: DISSOCIALIZE: to cause individuals to become socially isolated or disconnected from society and interpersonal relationships.

1. The constant pressure to conform to societal norms can often dissocialize individuals, leading to feelings of isolation.
2. In an increasingly digital world, some argue that technology can dissocialize us by replacing face-to-face interactions with virtual ones.
3. Therapists sometimes work to help clients overcome experiences that dissocialize them from their peers.
4. Cultural changes can dissocialize generations, making it challenging for them to connect with older family members.
5. The lack of community engagement can dissocialize children, hindering their social development and emotional growth.
