

DIVIDUAL

Meaning: Dividual (noun): a concept in anthropology that describes individuals as interconnected social entities rather than isolated beings, emphasizing shared identities and relationships.

1. The term 'dividual' refers to the concept of individuals as social entities rather than isolated beings.
2. In modern anthropology, the idea of the dividual challenges the notion of a singular, self-contained identity.
3. Dividuals are often understood in the context of cultures that emphasize relationships and communal ties over individualism.
4. The philosophy of dividuality suggests that our identities are shaped by our interactions and connections with others.
5. In some societies, being a dividual allows for a more fluid understanding of personal identity and social belonging.
