

DOGMATISM

Meaning: Dogmatism is the tendency to assert opinions or beliefs as incontrovertibly true, often leading to an unwillingness to consider alternative perspectives.

1. Dogmatism can hinder meaningful dialogue when individuals refuse to consider alternative viewpoints.
2. The professor's dogmatism made it difficult for students to express their opinions without fear of judgment.
3. In a world filled with diverse perspectives, dogmatism often leads to unnecessary conflict and misunderstanding.
4. Her dogmatism about political issues alienated many of her friends who held differing beliefs.
5. To foster innovation, organizations must challenge dogmatism and embrace a culture of open-mindedness.
