

DOGS-TONGUE

Meaning: Dogs-tongue refers to the rough, textured surface of a dog's tongue, which is covered in tiny papillae that assist in grooming and eating, as well as serving functions in thermoregulation and social interaction.

1. The texture of a dog's tongue is often rough due to tiny papillae that help with grooming and eating.
2. Dogs use their tongues not only to cool down but also to express affection towards their owners.
3. A dog's tongue can be a surprising shade of pink, and sometimes even spotted, depending on the breed.
4. When a dog pants, its tongue hangs out, providing a clear indication of its need to cool off.
5. The unique anatomy of a dog's tongue plays a crucial role in its ability to drink water efficiently.
