

DOLMEN

Meaning: A dolmen is a prehistoric megalithic structure consisting of a large stone slab supported by upright stones, often serving as a burial site or ceremonial monument.

1. The ancient dolmen stood majestically in the middle of the field, a testament to prehistoric engineering.
2. Archaeologists uncovered a dolmen that dated back thousands of years, revealing secrets of early human rituals.
3. Visitors to the site marveled at the sheer size of the dolmen, pondering the stories it might tell.
4. Legends say that the dolmen was built as a burial site for a great warrior, surrounded by mystery and reverence.
5. In the misty woods, the dolmen appeared almost otherworldly, inviting curious explorers to discover its history.
