

# DOVISH

*Meaning: Dovish refers to a policy or stance that favors lower interest rates and other measures to stimulate economic growth rather than controlling inflation.*

1. The central bank's dovish stance indicated a willingness to lower interest rates to stimulate the economy.
2. Many analysts praised the new governor's dovish approach to monetary policy, believing it would support growth.
3. In a dovish speech, the politician emphasized the importance of diplomacy over military intervention.
4. Investors reacted positively to the dovish signals from the Federal Reserve, anticipating a more favorable economic environment.
5. The dovish tone of the recent economic report suggested that inflation concerns were subsiding.
