

DREY

Meaning: DREY: A nest or shelter made of twigs and leaves, typically used by squirrels.

1. The squirrel scurried up the tree to check on its drey nestled among the branches.
2. After a long winter, the drey was finally filled with new twigs and soft moss for the upcoming spring.
3. Birds often nest nearby, unaware that a drey lies just a few feet away in the hollow of the tree.
4. The naturalist pointed out the drey to the children, explaining its importance for the young squirrels.
5. As autumn approached, the mother squirrel busily gathered acorns to store them in her drey.
