

DRIFTWEED

Meaning: Driftweed refers to seaweed or aquatic plants that have been washed ashore by the tide, often forming natural debris on beaches.

1. The beach was littered with driftweed, creating an unusual but beautiful tapestry along the shoreline.
2. As the storm passed, the ocean brought in a fresh supply of driftweed that fascinated the local marine biologists.
3. Children collected driftweed to use in their art projects, transforming the sea debris into creative masterpieces.
4. The driftweed, tangled and worn by the waves, served as a habitat for small sea creatures seeking shelter.
5. Walking along the coast, she marveled at the intricate patterns formed by the driftweed as it settled on the sand.
