

DYNAMITING

Meaning: Dynamiting refers to the act of using explosives to break apart or remove rock or other materials, typically for construction or excavation purposes.

1. The construction crew was dynamiting the rocky hillside to create a new road.
2. Dynamiting in the quarry was scheduled for early morning to minimize disruption to nearby residents.
3. Safety protocols were strictly enforced during the dynamiting operation to prevent accidents.
4. The old bridge was deemed unsafe, so the city planned on dynamiting it to clear the space for a new structure.
5. Local authorities issued a warning about the noise and vibrations associated with the dynamiting activity.
