

EMACULATION

Meaning: Emaculation refers to the act of making something weaker or less effective, particularly by stripping away essential elements or clarity.

1. The emaculation of the concept in his argument left listeners puzzled about his true intentions.
2. In the debate, the emaculation of her original ideas made it difficult for her to connect with the audience.
3. The artist's emaculation of traditional techniques led to a unique and modern interpretation of classic themes.
4. Despite the emaculation of the novel's central message, readers found it engaging on a superficial level.
5. The emaculation of the historical context rendered the documentary less impactful than it could have been.
