

# EMPIRICIST

*Meaning: Empiricist: a person who believes that knowledge is primarily derived from sensory experience and observation rather than theory or speculation.*

1. The empiricist approach emphasizes observation and experience as the primary sources of knowledge.
2. As an empiricist, she valued data and experimentation over theoretical speculation in her research.
3. Many empiricists argue that our understanding of the world is fundamentally shaped by our sensory experiences.
4. In philosophy, the debate between rationalists and empiricists has shaped discussions on the nature of knowledge for centuries.
5. An empiricist perspective can lead to more practical solutions in scientific inquiry and problem-solving.
