

# EMULSIFY

*Meaning: Emulsify: to mix two or more liquids together, such as oil and vinegar, to form a stable emulsion.*

1. To create a stable vinaigrette, you need to emulsify the oil and vinegar thoroughly.
2. The chef demonstrated how to emulsify the sauce using a whisk and a steady stream of olive oil.
3. When making mayonnaise, it's essential to emulsify the ingredients to achieve the right texture.
4. Some people prefer to emulsify their salad dressings in a blender for a smoother consistency.
5. In the food industry, emulsification is a crucial process for combining immiscible liquids like water and oil.
