

EMULSION

Meaning: Emulsion: A mixture of two or more immiscible liquids, where one liquid is dispersed in the form of small droplets within the other, often used in cooking and pharmaceuticals to enhance flavor or improve ingredient delivery.

1. The chef prepared a rich emulsion of olive oil and balsamic vinegar for the salad dressing.
2. In pharmaceuticals, an emulsion can help to deliver active ingredients more effectively.
3. The artist used an emulsion medium to achieve a unique texture in her paintings.
4. An emulsion can separate if not mixed properly, resulting in a less desirable consistency.
5. Many cosmetic products rely on stable emulsions to combine oil and water-based ingredients seamlessly.
