

EPENTHETIC

Meaning: Epenthetic refers to a vowel or sound added to a word to facilitate smoother pronunciation or to break up difficult consonant clusters in linguistics.

1. The epenthetic vowel in the word "athlete" helps in its smoother pronunciation.
2. In linguistics, an epenthetic sound is often inserted to break up difficult consonant clusters.
3. The child used an epenthetic 'e' in "saw" when pronouncing it as "sawer" for ease of articulation.
4. Epenthetic elements can vary across different languages and dialects, reflecting diverse phonetic rules.
5. The study of epenthetic features can provide insights into the evolution of a language over time.
