ETERNALIST

Meaning: Eternalist: a person who subscribes to the philosophy that all moments in time are equally real and that time is not linear, but rather a dimension where past, present, and future coexist simultaneously.

1. The eternalist philosophy suggests that all moments in time are equally real, challenging our perception of the present.

2. As an eternalist, she believed that every choice and event was part of a larger tapestry that transcended time.

3. In discussions about time travel, the eternalist perspective offers a unique lens through which to view causality and consequence.

4. His writings often reflect an eternalist view, emphasizing the interconnectedness of past, present, and future experiences.

5. Many find solace in the eternalist belief that our existence extends beyond the fleeting moments of life.
