

EXCAVATOR

Meaning: Excavator: a large, heavy machine used for digging and moving earth, typically equipped with a bucket and a rotating arm.

1. The construction site was bustling with activity as the excavator dug deep into the earth.
2. With its massive arm and powerful bucket, the excavator made short work of the old foundation.
3. The operator skillfully maneuvered the excavator to clear the debris from the collapsed building.
4. As we drove past the highway project, I marveled at the size of the excavator moving tons of dirt.
5. Safety regulations require all workers to wear helmets when operating near the excavator.
