

EXHALEMENT

Meaning: Exhalement refers to the act of breathing out or the release of air, often accompanied by the emission of scents or sounds.

1. The exhalement of the deep forest filled the air with the scent of pine and damp earth.
2. In the quiet of the morning, her exhalement was almost rhythmic, like a meditation in breath.
3. His exhalement after the long run was a testament to his effort and endurance.
4. The gentle exhalement of the waves on the shore created a soothing backdrop to their conversation.
5. With each exhalement, she released the stress of the day, finding peace in the moment.
