

# EXTERNALLY

*Meaning: Externally refers to the outward appearance or surface characteristics of something, as opposed to its internal aspects.*

1. The building was designed to look modern and sleek, both internally and externally.
2. Externally, the product appears simple, but it has many complex features under the surface.
3. The team conducted extensive tests to evaluate how the system would perform externally in various environments.
4. Externally, the company presents a strong brand image, but internally, it faces several challenges.
5. Her happiness seemed to shine through externally, even when she was struggling internally.
