

EXTRINSICAL

Meaning: Extrinsical refers to factors or influences that originate from outside a person or system, rather than from within.

1. The success of the project was largely influenced by extrinsical factors beyond the team's control.
2. Her motivation to excel in the competition was fueled by extrinsical rewards, such as trophies and recognition.
3. In discussions about personal growth, extrinsical motivations often overshadow intrinsic desires for self-improvement.
4. The extrinsical pressures of social media can create unrealistic expectations for young people today.
5. While intrinsic joy is valuable, extrinsical incentives can effectively drive performance in certain environments.
