

FACTUM

Meaning: Factum: a documented statement of facts or events, often used as evidence in legal or historical contexts.

1. The historical document served as a factum, establishing the events of that crucial era.
2. In legal contexts, a factum can provide the necessary evidence to support a claim or defense.
3. Philosophers often debate the nature of a factum and its implications for truth and belief.
4. The artist's work was a factum of his experiences, reflecting both joy and sorrow.
5. Understanding the factum of the situation is crucial for making informed decisions.
