

FEDERALISM

Meaning: Federalism is a political system in which power is divided between a central authority and regional governments, allowing for both national and local governance.

1. Federalism allows for a division of powers between national and state governments, promoting local governance.
2. The debate over federalism often centers on the balance of power between central authority and regional autonomy.
3. In a federalism system, states can experiment with different policies that may later be adopted at the national level.
4. The resilience of federalism can be seen in how it accommodates diverse cultures and populations within a single nation.
5. Many scholars argue that federalism enhances democracy by bringing government closer to the people.
