

FELLOE

Meaning: FELLOE: The outer part of a wheel, typically made of wood or metal, that supports the rim and holds the spokes in place.

1. The carpenter selected the finest wood to craft the wheel's felloe.
2. As the wagon rolled over the rough terrain, the felloe creaked under the strain.
3. He painted the felloe in bright colors to match the rest of the cart's design.
4. In traditional blacksmithing, the felloe is crucial for maintaining the wheel's integrity.
5. The artisan demonstrated how to properly fit the felloe onto the newly forged wheel.
