

# FEODALITY

*Meaning: Feodality is a social and economic system prevalent in medieval Europe, characterized by the relationship between lords and vassals, where land ownership and obligations defined the hierarchy and governance of society.*

1. The concept of feodality structured medieval society into a hierarchy of lords and vassals.
2. Scholars debate the economic implications of feodality on the development of early European states.
3. In many regions, feodality began to decline with the rise of centralized monarchies.
4. The remnants of feodality can still be seen in certain cultural practices and land ownership structures today.
5. Feodality not only defined political relationships but also influenced social norms and obligations among the nobility.
