

FETTLING

Meaning: Fettling refers to the process of refining, finishing, or preparing an object, particularly in metalworking or artistic contexts, to achieve a desired quality or detail.

1. Fettling the metal pieces was crucial before the assembly process could begin.
2. The artist spent hours fettling her sculpture to ensure every detail was perfect.
3. In the workshop, fettling often involved smoothing edges and removing imperfections.
4. He enjoyed fettling his old motorbike, bringing it back to its former glory.
5. Fettling can be a meticulous task, but it's essential for achieving high-quality results.
