

FEUDALIST

Meaning: A feudalist is a person who supports or advocates for a feudal system of governance characterized by a hierarchical structure of land ownership and obligations between lords and vassals.

1. The feudalist system created a rigid social hierarchy that defined medieval life.
2. As a committed feudalist, he believed in the importance of loyalty between lords and vassals.
3. Historians often debate the economic implications of feudalist policies on rural development.
4. In the novel, the protagonist challenged the oppressive norms of a feudalist society.
5. Her research focuses on the decline of feudalist structures in early modern Europe.
