

# FIREROOM

*Meaning: FIREROOM: A compartment on a ship or in a building where a furnace or boiler is located and managed, often characterized by heat and flames.*

1. The fireroom was filled with the sound of crackling flames and the warmth of the glowing embers.
2. In the ancient ship, the fireroom was where the crew managed the boiler and ensured smooth sailing.
3. After hours of training, the firefighters finally felt comfortable in the fireroom simulator.
4. The novel's climax unfolded in the dark and smoky fireroom, heightening the sense of danger.
5. To keep the fireroom safe, strict protocols were established to prevent any accidents during operation.
