

FIRST-HAND

Meaning: First-hand refers to information or experience obtained directly from personal involvement or observation, rather than through second-hand sources.

1. Her first-hand experience in the industry gives her a unique perspective on the challenges businesses face.
2. He shared his first-hand account of the event, providing details that were missing from the media coverage.
3. Reading first-hand testimonials can help you better understand the impact of the product on real users.
4. She was able to provide first-hand insight into the cultural practices of the community she studied.
5. I learned about the historical event through first-hand letters written by those who lived through it.
