

FOGBOW

Meaning: A fogbow is a rare optical phenomenon resembling a rainbow that occurs when light is refracted through tiny water droplets in fog, creating a pale, arc-like appearance in the sky.

1. The fogbow appeared like a delicate ribbon stretching across the harbor at dawn.
2. As the sun rose higher, the ethereal fogbow shimmered in the morning light.
3. She stood in awe, captivated by the rare beauty of the fogbow arching over the valley.
4. Photographers flocked to the scene, eager to capture the fleeting moment of the fogbow.
5. The fogbow's subtle colors blended seamlessly with the mist, creating a dreamlike atmosphere.
