

FOILER

Meaning: A foiler is a type of boat or sailing craft equipped with hydrofoils that lift it above the water's surface to reduce drag and increase speed.

1. The foiler glided smoothly across the water, leaving a trail of frothy waves behind.
2. In the world of sailing, a foiler can dramatically increase speed by lifting above the surface.
3. She marveled at the design of the foiler, which combined elegance with cutting-edge technology.
4. During the regatta, the foiler's impressive performance caught the attention of all the spectators.
5. Many experienced sailors have embraced foilers for their ability to revolutionize the sport.
