

FRAGOR

Meaning: Fragor refers to a loud, resonant sound or noise, often associated with thunder or explosions.

1. The fragor of the thunderstorm echoed through the valley, shaking the windows of nearby houses.
2. As the fireworks erupted in the night sky, their fragor was accompanied by cheers from the crowd below.
3. The fragor of the crashing waves against the cliffs created a symphony of sound that captivated beachgoers.
4. In the quiet forest, the sudden fragor of a fallen tree startled the birds into flight.
5. During the concert, the fragor of the drums reverberated through the audience, energizing everyone present.
