

FRANKING

Meaning: Franking is the process of marking mail to indicate that postage has been paid, allowing it to be sent without traditional stamps.

1. Franking allows businesses to send mail without having to use stamps.
2. The franking machine made it easier for the office to manage large volumes of correspondence.
3. After the changes in postal regulations, franking became a popular option for non-profits.
4. The franking privilege gives certain officials the right to send mail without postage.
5. Using franking can significantly reduce mailing costs for frequent senders.
