

FRATERNIZER

Meaning: Fraternizer: a person who engages in friendly social interactions and builds relationships with others, especially across different groups or departments.

1. The new employee quickly became known as a fraternizer, often seen chatting and laughing with colleagues from different departments.
2. In an effort to foster teamwork, the manager encouraged his staff to be fraternizers rather than isolating themselves in their own groups.
3. Her tendency to fraternize with clients helped build strong relationships that benefited the entire company.
4. During the conference, it was clear that the most successful attendees were the ones who acted as fraternizers, networking with everyone they met.
5. The school's culture thrived on students who were natural fraternizers, bridging gaps between various social circles.
