

FROND

Meaning: A frond is a large, divided leaf, especially of a fern or palm, that typically has a feathery or lobed appearance.

1. The frond of the fern unfurled gracefully in the dappled sunlight.
2. She plucked a delicate frond from the tropical plant to use in her floral arrangement.
3. Each frond swayed gently in the breeze, creating a soothing rustling sound.
4. The gardener admired the intricate patterns on the frond's surface, marveling at nature's artistry.
5. As autumn approached, the fronds began to lose their vibrant green color, hinting at the changing season.
