

FRUSTULENT

Meaning: Frustulent refers to a rough or uneven texture that hinders smooth interaction or settlement on a surface.

1. The frustulent texture of the coral made it difficult for marine life to settle on its surface.
2. After the heavy rainfall, the frustulent mud made it nearly impossible to traverse the hiking trail.
3. The artist's use of frustulent materials added an unconventional dimension to the sculpture.
4. In botany, frustulent structures often provide essential support and protection for delicate plants.
5. The frustulent appearance of the freshly baked bread gave it an inviting crust that beckoned to be tasted.
