

GAFF-TOPSAIL

Meaning: A gaff-topsail is a triangular sail set above the gaff on a sailing vessel, used to enhance speed and maneuverability by catching wind.

1. The gaff-topsail billowed in the wind, adding extra speed to the racing yacht.
2. He carefully adjusted the gaff-topsail to optimize its angle against the gusts.
3. The crew worked diligently to raise the gaff-topsail as the storm clouds gathered on the horizon.
4. Her knowledge of rigging included the nuances of setting a gaff-topsail effectively.
5. As the sun set, the gaff-topsail caught the last rays of light, illuminating the ship's silhouette.
