

GASTROSCOPE

Meaning: A gastroscope is a medical instrument used to visually examine the interior of the stomach.

1. The doctor used a gastroscope to examine the patient's stomach lining for any abnormalities.
2. After the gastroscope procedure, the patient was relieved to hear that no serious issues were found.
3. A gastroscope is essential for diagnosing conditions like ulcers and gastritis.
4. During the endoscopy, the surgeon carefully maneuvered the gastroscope to capture detailed images.
5. Patients are often anxious before a gastroscope, but the procedure is typically quick and minimally uncomfortable.
