GENTILISM

Meaning: Gentilism is the belief in natural religion or the pagan practices and beliefs of ancient civilizations that existed before organized religions.

1. Gentilism often refers to the belief in natural religion that predates formal organized religions.
2. In historical contexts, gentilism was used to describe the pagan beliefs of ancient civilizations.
3. The philosopher argued that gentilism could provide insights into the moral intuitions of humanity before the establishment of structured faiths.
4. Some anthropologists study gentilism to understand the spiritual practices of indigenous cultures.
5. The transition from gentilism to organized religion marked a significant shift in societal governance and ethics.
