GERANIUM

Meaning: Geranium: a flowering plant of the genus Pelargonium, often cultivated for its bright, colorful blooms and used in gardens and as houseplants.

1. The vibrant geraniums in the garden added a splash of color to the otherwise dull landscape.
2. She carefully arranged the geraniums in pots, hoping they would thrive in the sunny window.
3. During the summer months, the scent of geraniums filled the air, attracting bees and butterflies.
4. The geranium variety she chose was known for its striking red blooms and hearty growth.
5. After a long day, she found solace in tending to her geraniums, appreciating their beauty and resilience.
