

GLASS-ROPE

Meaning: Glass-rope is a type of artistic material made from thin, flexible strands of glass, often used in installations and performances for its aesthetic qualities and ability to refract light.

1. The artist used glass-rope to create a stunning installation that captured the light beautifully.
2. During the festival, performers showcased their skills by walking on glass-rope suspended high above the crowd.
3. The delicate glass-rope shimmered in the sunlight, adding a magical touch to the garden decor.
4. In her latest project, she experimented with glass-rope to explore themes of fragility and strength.
5. The intricate patterns woven with glass-rope brought a unique aesthetic to the modern art exhibit.
