

GLAZY

Meaning: Glazy (adjective): having a shiny or smooth surface that reflects light, often due to a coating or finish.

1. The surface of the old ceramic pot was glazy, reflecting the light beautifully.
2. After hours of baking, the cookies had a perfectly glazy finish that made them irresistible.
3. The artist applied a glazy topcoat to her painting to enhance its vibrancy and depth.
4. Walking through the foggy morning, the world appeared glazy and surreal, as if wrapped in a dream.
5. The glazy sheen on the leaves after the rain made the garden look enchanting and fresh.
