

# GNATLING

*Meaning: A gnatling is a small, often barely visible insect similar to a gnat, typically found in gardens or near water, known for its buzzing flight.*

1. The gnatling buzzed around the garden, tiny and almost unnoticeable among the flowers.
2. While camping, the children were fascinated by the gnatlings flitting about the twilight air.
3. She swatted at the gnatling, annoyed by its persistent presence during the picnic.
4. The gnatling's rapid movements made it difficult to catch a glimpse of its delicate wings.
5. In the warm summer evenings, gnatlings danced above the pond, creating a mesmerizing display.
