

GRAMPUS

Meaning: Grampus: a large marine mammal of the dolphin family, specifically the Risso's dolphin, characterized by a robust body and blunt head.

1. The grampus, often mistaken for a dolphin, is known for its distinctively robust body and blunt head.
2. Researchers observed a pod of grampuses playfully surfacing off the coast, captivating tourists and marine biologists alike.
3. In ancient folklore, the grampus was sometimes thought to be a harbinger of storms, feared by sailors navigating treacherous waters.
4. The grampus is an intelligent creature, exhibiting complex social behaviors and strong familial bonds within its pods.
5. Conservation efforts are underway to protect the grampus, as its habitat faces increasing threats from pollution and climate change.
