

# GRISTMILL

*Meaning: A gristmill is a facility where grains are ground into flour using a mechanical process, often powered by water or wind.*

1. The old gristmill stood at the edge of the river, its wheel creaking as it turned.
2. During the tour, we learned how the gristmill transformed grains into flour for local farmers.
3. In the early morning light, the gristmill's stone facade glimmered like a relic from the past.
4. After years of disrepair, the community came together to restore the historic gristmill.
5. The sound of grinding grain filled the air as the gristmill operated, a testament to traditional craftsmanship.
