

HALF-LENGTH

Meaning: Half-length refers to a style or format that is approximately midway in size or duration, typically covering only part of the full length, such as a dress that reaches halfway down the body or a video that is shorter than a full-length version.

1. The dress was designed in a half-length style that beautifully complemented her figure.
2. During the presentation, the speaker used a half-length video to maintain the audience's attention.
3. The half-length mirror in the hallway made it easy to check her outfit before leaving.
4. He chose a half-length coat for the chilly evening, which provided both warmth and style.
5. The film featured a half-length documentary segment that highlighted the key issues at hand.
