

HARPSICHORD

Meaning: A harpsichord is a keyboard instrument that produces sound by plucking strings, commonly used during the Baroque period and noted for its distinct tone compared to the modern piano.

1. The harpsichord produces a unique sound that distinguishes it from the modern piano.
2. During the Baroque period, the harpsichord was a popular instrument in both solo and ensemble performances.
3. Many composers, including Bach and Scarlatti, wrote exquisite pieces specifically for the harpsichord.
4. In musicology classes, students often study the rich history and techniques of playing the harpsichord.
5. The delicate plucking mechanism of the harpsichord gives it a bright, resonant tone that captivates listeners.
