

HATCHERY

Meaning: A hatchery is a facility for breeding and raising young fish or birds from eggs until they are ready for release or sale.

1. The fish hatchery is responsible for raising young salmon before they are released into the river.
2. In the spring, the hatchery became bustling with activity as eggs began to hatch into tiny chicks.
3. Many local farmers rely on the hatchery for a steady supply of healthy poultry stock.
4. The environmental group organized a tour of the hatchery to educate the public about sustainable aquaculture practices.
5. Visitors to the hatchery were amazed to see the delicate process of incubating and caring for the eggs.
