

HAWSER

Meaning: Hawser: a thick rope or cable used for mooring or towing a ship.

1. The crew secured the hawsers to ensure the ship remained steady in the harbor.
2. During the storm, the hawsers strained under the enormous force of the waves.
3. They needed a new hawsers system to handle the increased load of the cargo.
4. The captain ordered the hawsers to be checked for wear before setting sail.
5. With a loud snap, the frayed hawsers finally gave way, sending the boat adrift.
