

HEADSAIL

Meaning: HEADSAIL: A sail set forward of the mast on a sailing vessel, typically used to harness wind for propulsion.

1. The headsail caught the wind perfectly, propelling the yacht forward with impressive speed.
2. As the storm approached, the sailor decided to reduce the size of the headsail for better control.
3. She adjusted the sheets on the headsail, ensuring it was trimmed for optimal performance.
4. The headsail fluttered wildly as the boat navigated through the choppy waters.
5. After a long day of sailing, he carefully furled the headsail and secured it for the night.
