

HEATHENISM

Meaning: Heathenism is the belief system characterized by practices and beliefs that are not aligned with the major world religions, often associated with paganism.

1. Heathenism often represents a belief system that is outside of the major world religions.
2. In some historical contexts, heathenism was associated with pagan practices.
3. The rise of Christianity in Europe led to a decline in the influence of heathenism.
4. Many scholars study the remnants of heathenism to understand ancient cultural beliefs.
5. Heathenism can be seen as a rejection of organized religion in favor of nature-based spirituality.
